• +92 345 303 1751 • a-moiz@live.com • muhammadoiz@gmail.com • Gulistan-e-Johar, Karachi, Pakistan

PROFESSIONAL SUMMARY

DevOps and cloud operations leader with **15+ years** across IT infrastructure, technical support and service delivery, including **9+ years at 10Pearls** progressing from DevOps Support Engineer to Associate DevOps Support Manager. Leads **24x7 DevOps support operations** for cloud-hosted environments on AWS and Azure, owning SLA compliance, client onboarding, incident resolution and the internal processes that keep multi-client operations running. Microsoft certified in Azure administration, networking and Azure Virtual Desktop.

CORE COMPETENCIES

24x7 Operations Leadership	SLA Management & Compliance	Incident & Problem Resolution
Client & Stakeholder Onboarding	Process & SOP Development	Team Leadership & Mentoring
AWS & Azure Infrastructure	Monitoring & Observability	CI/CD & Automation

PROFESSIONAL EXPERIENCE

10Pearls Pvt Ltd

Karachi • 2017 – Present

Associate DevOps Support Manager

January 2023 – Present

- Hold full ownership of 24x7 DevOps support operations across client-hosted cloud infrastructure.
- Lead onboarding of new DevOps projects, acting as the primary liaison between clients and internal stakeholders.
- Design and implement internal processes and SOPs that standardise how DevOps requirements are delivered.
- Manage team duty rosters and shift coverage to maintain round-the-clock service and SLA compliance.
- Deliver operational support and performance optimisation for cloud-hosted infrastructure.
- Drive proactive support, policy management and incident resolution to reduce service disruption.

Staff DevOps Support Engineer

January 2021 – January 2023

- Supervised the 24x7 DevOps monitoring team, ensuring smooth and uninterrupted operations.
- Provided technical leadership for mission-critical systems and drove proactive issue resolution.
- Designed scalable DevOps support solutions integrating cloud, automation and security practices.
- Mentored junior engineers, building technical depth and consistent operating standards across the team.

Senior DevOps Support Engineer

January 2018 – January 2021

- Implemented monitoring with Zabbix, AWS CloudWatch and the ELK stack to improve visibility and response.
- Managed and optimised AWS and Azure infrastructure for client workloads.
- Worked hands-on with Kubernetes, Docker and CI/CD pipelines.
- Delivered proactive support to maintain application availability.

DevOps Support Engineer

January 2017 – January 2018

- Optimised CI/CD pipelines and improved deployment automation.
- Troubleshoot Linux and Windows environments to ensure operational continuity.
- Collaborated with cross-functional teams to align DevOps practices with business goals.

Intertechnologies

April 2016 – January 2017

Manager, Customer Support & Services

April 2016 – January 2017

- Led a high-performing customer service team focused on strong customer satisfaction (CSAT).
- Oversaw 24x7 technical support across live chat, ticketing and email channels.
- Conducted quality assurance for software, websites and support systems.
- Recruited and trained support staff and managed service delivery processes.

Gaditek Associates

May 2011 – April 2016

System Administrator

December 2014 – April 2016

- Installed and configured Windows Server 2008 R2 and 2012 R2 environments.
- Deployed Kaspersky across virtual networks and monitored infrastructure with PRTG.
- Managed remote servers and VPN configurations.

Technical Support Engineer

May 2011 – December 2014

- Provided technical and sales support for VPN services across multiple platforms.
- Configured PPTP, L2TP, OpenVPN and IKEv2 protocols across a wide range of devices.
- Delivered remote troubleshooting while maintaining high customer satisfaction.
